

DS 7330

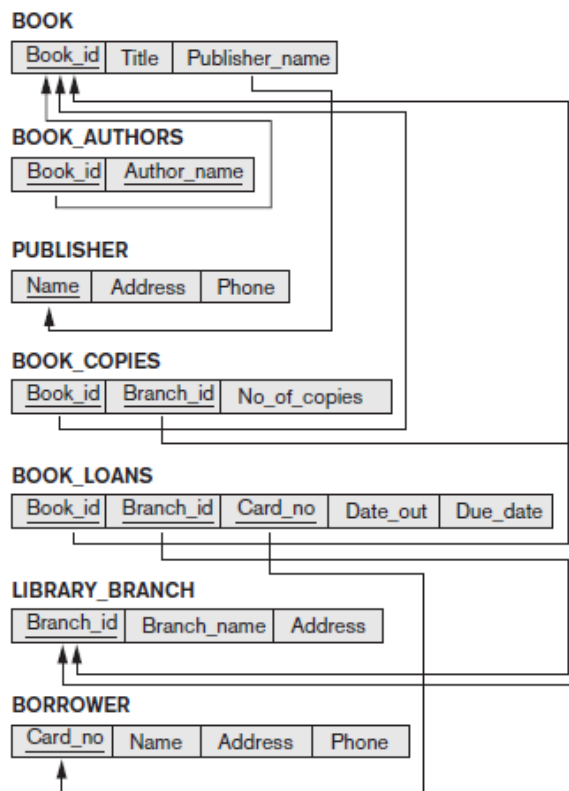

File Organization and Database Management

Mini Project 3

Name:

This is a mini project for DS 7330, File Organization and Database Management. For this assignment, turn in a single pdf file containing all of your answers. The file should be named "yourLastNameMiniProject-Number.pdf". For example, the file name for my mini project 1 would be 'RafiqiMiniProject-1.pdf'.

Question: Based on the following DB Schema Write down relational expressions for the following queries:

- How many copies of the book titled *The Lost Tribe* are owned by the library branch whose name is 'Sharpstown'?
- How many copies of the book titled *The Lost Tribe* are owned by each library branch?

- c. Retrieve the names of all borrowers who do not have any books checked out.
- d. For each book that is loaned out from the Sharpstown branch and whose Due_date is today, retrieve the book title, the borrower's name, and the borrower's address.
- e. For each library branch, retrieve the branch name and the total number of books loaned out from that branch.
- f. Retrieve the names, addresses, and number of books checked out for all borrowers who have more than five books checked out.
- g. Retrieve a list of Book ID and Book Title that are borrowed by all borrowers.

Hint: Please use Relational algebra constructs that we review during the live session.
