

DS 7330

File Organization and Database Management

Mini Project 1 – MySQL

Name:

This is a mini project for DS 7330, File Organization and Database Management. For this assignment, turn in a single pdf file containing all of your answers. The file should be named ;yourLastName;MiniProject-Number.pdf. For example, the file name for my mini project 1 would be 'RafiqiMiniProject-1.pdf'.

Collaboration is expected and encouraged; however, each student must hand in their own homework assignment. To the greatest extent possible, answers should not be copied but, instead, should be written in your own words. Copying answers from anywhere is plagiarism, this includes copying text directly from the textbook. Do not copy answers. Always use your own words and your own code. Directly under each question list all persons with whom you collaborated and list all resources used in arriving at your answer. Resources include but are not limited to the textbook used for this course, papers read on the topic, and Google search results. Don't forget to place your name on the first page of the pdf document.

MySQL Database

Question 1 : Download and install the MySQL Community Server database program on your computer. MySQL Community Server is a free download from <https://www.mysql.com>. In addition to MySQL please also install MySQL Workbench. MySQL Workbench is a visualization applications for accessing MySQL databases.

Once you have installed MySQL, be sure to set the password for your user account on the MySQL database. And, be sure to give your account the privileges needed to create and modify databases. The MySQL reference manual, available from <https://www.mysql.com>, provides in-depth instructions on how to install and configure your MySQL software.

Once you have installed and configured MySQL, select the mysql database by executing the "USE mysql" command. Then, run the query "SELECT User, Host, Password FROM mysql.user;" from the command line.

Capture the resulting output as a screen capture or grab and turn in the resulting pdf showing both the query and the results.
